## Professional Summary

Computer Science graduate and CDAC-trained Software Developer with hands-on experience in backend and full-stack application development using Java, Spring Boot, React.js, MySQL, .NET, and REST APIs. Strong foundation in Core Java, Object-Oriented Programming, Data Structures and Algorithms, DBMS, and software development. Developed microservices-based applications with JWT authentication, role-based access control, database integration, and payment processing. Interested in building reliable backend systems and solving real-world software engineering problems.

## Technical Skills

| | |
|---|---|
| **Programming** | Java, C++, C#, JavaScript |
| **Core Java** | OOP, Collections, Exception Handling, Multithreading, Generics, Streams |
| **Backend** | Spring Boot, Spring Data JPA, Hibernate, REST APIs, Node.js, Express.js, ASP.NET Core, .NET |
| **Frontend** | React.js, HTML5, CSS3, Bootstrap |
| **Database** | MySQL, SQL Server, MongoDB, SQL |
| **Security** | Spring Security, JWT Authentication, Role-Based Access Control |
| **Concepts** | Data Structures and Algorithms, DBMS, Microservices, REST API Development, Object-Oriented Programming |
| **Tools** | Git, GitHub, Postman, Swagger, Maven, JUnit |

## Education

**Post Graduate Diploma in Advanced Computing (PGDAC)** — **Feb 2026 – Aug 2026**
*Centre for Development of Advanced Computing (C-DAC)*

**B.Tech. – Computer Science & Engineering** — **2025**
*United College of Engineering & Research, Prayagraj* — **78.9%**
Dr. A.P.J. Abdul Kalam Technical University, Uttar Pradesh

**Class XII – PCM** — **2020**
*Jameel Uddine Memorial IC Bariyari, Prayagraj* — **72.00%**

**Class X – General** — **2018**
*J U M HSS Bariyari, Prayagraj* — **79.66%**

## Academic Projects

**AgriSure – Smart Crop Insurance and Claim Management System**
*Platform: Java, Spring Boot, Spring Data JPA, Hibernate, React.js, MySQL, .NET, Microservices, REST APIs*

- Developed a full-stack crop insurance and claim management system using Spring Boot, React.js, and MySQL.
- Designed and implemented REST APIs using Spring Boot, Spring Data JPA, and Hibernate for farmer, crop, insurance, policy, and claim management.
- Implemented JWT authentication and role-based access control for Admin, Farmer, Inspector, and Insurance Officer.
- Implemented business workflows for farmer registration, crop management, insurance applications, policy generation, premium payments, and claim processing.
- Integrated a separate ASP.NET Core microservice with Razorpay for secure online premium payment processing.
- Implemented document verification, field inspection, claim approval, and payment tracking workflows.
- Designed modular backend architecture with RESTful APIs, JWT-based authentication, role-based authorization, and database persistence using JPA/Hibernate.
- **Repository:** github.com/saurabhpandey8957s/AgriSure

**CampusConnect – College Management System**
*Platform: React.js, Express.js, Node.js, MongoDB, Bootstrap, REST APIs, JWT Authentication, Git*

- Developed a full-stack College Management System using React.js, Node.js, Express.js, and MongoDB.
- Implemented separate dashboards for Admin, Faculty, and Students with role-based access control.
- Developed student management, faculty management, attendance tracking, and marks management modules.
- Implemented JWT authentication and REST APIs for secure frontend-backend communication.
- Designed backend APIs and database operations to support academic and administrative workflows.
- Integrated React.js frontend with REST APIs to provide secure, role-based access to academic and administrative modules.
- **Repository:** github.com/saurabhpandey8957s/CampusConnect

## Extra-Curricular Activities

- Participated in college technical events, coding competitions, hackathons, sports and cultural activities.
